INTERNATIONAL EDUCATION

Elementary School

EDUCATION of the best eclectic development

DESTINATION IMAGINATION

Non-profit program intended to inspire and equip students from all the educative levels to become the next generation of leaders and innovators. D.I. fosters creativity, problem solving and team work. Winner teams have the opportunity of participating in Global Finals, which take place in TENNESSEE, USA and where teams from United States and over fifteen countries participate.

WEE (World English Experience)

World English Experience (WEE) is a program created by *Oxford International Education*, and supported by the *British Council*. *WEE* is an innovative experience intended to help students develop an important personal growth, which will be evident right after his/her return.

Participants will have English lessons for two weeks and then be certified by Trinity College. Besides, they will participate in six different challenges, facing other schools from Mexico, South America and Spain. There will also exist a wide cultural development, as the magnificent city of London as well as other important sites of England will be visited during the stay.
