INTERNATIONAL EDUCATION

Kindergarten

THE BASIS of the best eclectic development

It's well known that children learn best when they are having fun and are confident in their environment and with their peers. At Liceo Británico, we promote the development of the all-round child and introduce them to a broad, exciting programme of learning through some of the best recognised forms of teaching and through our truly innovative studio programme which focuses on art, music, language, maths, literacy, numeracy, science, social studies, British culture, IT, and sports. Our Kindergarten is characterised for being the basis of our huge institution, working with a multidisciplinary and cross-cultural curriculum that focuses in the improvement of skills and abilities to develop "Exceptional talents for life" under safe, comfort, and welfare environments.
